Evergreen Valley College Clinical Clearance Process
Student Checklist

All Items Due in Complio (www.evcbackgroundcheck.com) by June 30th

☑ Completed & Uploaded  Name: ____________________  Date: ______________

☐ Background Check and Drug Screening- Annual
  - All students participating in clinical assignments are required by acute care hospitals to complete a criminal background check and be cleared by the clinical facility in order to participate in the clinical experience. All students will be required to pass a drug screen.

☐ Emergency Contact Form: must use EVC form, and update thereafter as indicated

☐ Acceptance & Responsibility Form: must use EVC form

☐ Health Insurance
  - Verification of current health insurance coverage (insurance card or enrollment document)
  - Community resources if you need health insurance:
    - Covered California: http://www.coveredca.com/

☐ Health Clearance- Annual
  - A medical history and physical examination completed by a physician, physician’s assistant, or nurse practitioner within three (3) months prior to program enrollment year. The physical must state that the applicant does not have any health conditions that would create a hazard to self, employees, or patients.
  - Must use EVC form

☐ CPR
  - Current Basic Life Support (BLS) Provider certification
  - The ADN Program will offer American Heart Association (AHA), BLS class every summer for all accepted applicants; applicant covers cost

☐ Respiratory Fit-test- Annual
  - Written documentation (EVC form or Employer form) of annual fit-test results with the health care particulate respirator N95; form for tests at EVC
  - The ADN Program will offer testing for all accepted applicants; applicant covers cost

☐ PPD/Tuberculosis Skin Test (TST): Note- vaccination with live viruses (such as Varicella and MMR) may interfere with TST reactions. TST may be given either on the same day as vaccination with live-
virus vaccine or 4-6 weeks after the administration of the live-virus vaccine. Highly advised to complete TST before receiving live-virus vaccines.

o Negative TST history
  ▪ Must initiate a 2-step TST within 3 months prior to program enrollment year:
    • If first-step TST result is negative, the second-step TST should be administered 1-3 weeks after the first TST result was read.
    • If either, 1) the baseline first-step TST result is positive or 2) the first-step TST results is negative but the second-step TST is positive, TB disease should be excluded. Follow-up chest radiograph or x-ray (CXR) with written report of negative results.

o Positive TST history:
  ▪ Negative TB symptom review questionnaire (obtained from physician)
  ▪ Written report of negative CXR within 3 months prior to program start date

o Interferon Gamma Release Assay (IGRA):
  ▪ Certain restrictions apply; must contact Division Dean for prior approval and must have a condition (i.e, positive result) that supports the request

☐ MMR
  o Positive antibody titer to measles, mumps, and rubella

☐ Hepatitis B
  o Written documentation of 3 doses of Hepatitis B vaccine, AND
  o Positive antibody titer

☐ Varicella
  o Positive antibody titer

☐ T-Dap
  o Written documentation of one dose of T-Dap vaccine within past 10 years

☐ Seasonal Flu Vaccine
  o Written documentation of Seasonal Flu Vaccine (annual), or
  o Signed declination of vaccine form (must wear mask during flu season)

Note:
  • Written documentation:
    o Copy of yellow immunization record, or
    o Copy of vaccine receipt with your name, name of vaccine, dose, route, date, or
    o Physician letter (must be on physician stationary/letterhead) stating your name, name of vaccine, dose, and date
  • Lab titer results (antibody titer):
    o Laboratory evidence of immunity - copy of lab slip (*For Kaiser patients, just a screen print of your lab results indicating positive or negative are acceptable).
