**IX. INFORMATION ITEMS**

A.  **Campus Security Infrastructure: Security Cameras**
Vice President Henry Gee, Police Chief Ray Aguirre, and Lieutenant Gilbert Torres discussed the use of security cameras on campus. Chief Aguirre felt that the cameras will reduce crime on campus by monitoring criminal activity, reporting on suspicious activity, and assisting in the deployment of critical resources—such as the case of an active shooter, but they will serve mostly for evidentiary purposes.

Chief Aguirre addressed the perception of lack of privacy with the cameras, as well as the lack of bandwidth with which to operate the cameras. The locations targeted for cameras will be those where the campus community does not have a reasonable expectation of privacy such as the library, bookstore and other general congregation areas. Lighting, trimming shrubbery, and integrating security ideas into the layout and design of future campus buildings, including access for emergency vehicles are all part of the security infrastructure. Concern was expressed about the publishing of the videos and light pollution on campus that would hinder visibility for the observatory. Chief Aguirre insisted surveillance recordings would be kept confidential except when used in public prosecutions and noted that he is aware of and is working with the astronomy faculty regarding lighting compatibility with the observatory. Chief Aguirre stated that he was available for comments or questions, and invited the Senate to view the monitors in the Campus Police station. This will be discussed further at the next meeting.

B.  **Ad Hoc Marketing Committee Update**
Senator Robin Hahn reviewed the two focuses of the committee: external and internal promotion of the campus in general and of available classes. She stated that the Outreach Committee was working well on this, however, it is still unknown how to reach students about under-enrolled classes and who is authorized to send out that information. Senator Hahn will work with the EVC Webmaster, Shashi Naidu to promote classes on the EVC web site.

C.  **Spring Plenary Session Update**

A. Campus Security Infrastructure: Security Cameras  
Vice President Henry Gee and Police Chief Ray Aguirre were present to answer questions from the Senate about details involving the installation and implementation of security cameras. The main concerns were for signage, technology and cost involved in setting up and use of the cameras. Mr. Gee explained the that cost and technology were connected and that there is a learning process as the cameras are used as evidence and changes will be made as needed. He explained that the use of signage is a doubled-edged sword that could give the campus community a false sense of security since camera saturation will be limited. It was argued that best use of signage would be to post notices at the entrances to campus that video surveillance is being. The concern of extra staff needed to watch the camera was raised. Chief Aguirre explained that this would be handled by existing police office staff, not police officers, though additional staffing would be more effective for security. Additional questions were raised about the budget for campus surveillance and although VP Gee didn't have an hadn’t a budget plan for the system, its cost were to be included in and funded as a part of the district’s overall safety and security budget. Vice President Gee and Chief Aguirre promised to return periodically during the semester to introduce other security measures and to answer questions. A request was made for assistance developing policy and procurees pertaining to campus security issues. A motion was made to support the installation of security cameras. The motion as seconded and passed.  

B. Adjunct Senate Election Results

VIII. DISCUSSION ITEMS

A. Staff Development Concerns
Staff Development Chair, Nasreen Rahim, reported on the feedback she received about the most recent PDD that contained both positive and negative responses and suggestions. Senator Rahim introduced a plan to videotape the various constituency leaders’ introductions, which would allow more time for a more interactive session with a question and answer period. The Chancellor and President would also be present for questions and answers. The working lunch during PDD was discussed, and about this too, the reviews were mixed. PDD will be discussed further during the semester.

B. Reassigned Time Selection Process
President Narveson has not yet had the opportunity to discuss this with President Yong.

C. Testing Center for Online Classes
The question of having a dedicated test center was discussed, as well as instances of tests being proctored by non-faculty members. Senator Rahim explained that we are already doing remote proctoring for students who live too far away to come to campus. President Narveson would like to pass a resolution describing exactly what our needs are for a testing center. It would be aimed at the administration and also stipulate what we need in order to be in compliance with the new laws on distance education. He is willing to work with Senator Rahim to this end, and present the Senate’s proposal to the ACCC. Senator Rahim called for more volunteers to work on the Distance Education committee; Senators Ambica Gil, Jack Baker, and Martha Hardin will participate. This will be taken to the ACCC for approval and discussed throughout the semester.

G. Design and Structure of EVC Website Committee
There will be a call for faculty volunteers on this committee.

H. Protocol Regarding Potentially Harmful or Dangerous Students in the Classroom
Concern was expressed over potentially dangerous or intoxicated students in the classroom. There seems to be many issues that are not being addressed nor are there policies and procedures for dealing with these students. Several Senators spoke about various disturbing incidents that they have experienced. There is no record kept of behavioral problems, and confidentiality for students prevents the problematic ones from being identified and instructors being alerted to potential problems. VIII. DISCUSSION ITEMS

A. Protocol Regarding Potentially Harmful or Dangerous Students in the Classroom
   Senator and Staff Development Committee Chair, Nasreen Rahim relayed how she and the committee are addressing the issue of students who are disruptive or possibly a danger to others. Currently, there are no procedures or policies on how to handle these students. Senator Lisa Bell explained the West Valley/Mission College District procedures and she will bring more information to the next meeting. It was felt that perhaps the Faculty Association could present the issue as a workplace safety issue. An idea about creating a reporting system and forming a committee to review the reports was suggested. Various hazardous experiences were shared and dismay was expressed that there is no way to lock classroom doors from the inside. President Narveson pointed out that there was a resolution passed at the Fall 2013 Plenary Session about campus safety being part of the Senate’s 10+1 purview. The issue will be revisited by the Senate during the spring 2014 semester.

This will be discussed more at the next meeting.

Senator Robin Hahn reported on the latest efforts of the committee. The current focus was on marketing classes that are in danger of being canceled by contacting students via “blast” e-mail or on the EVC webpage when it is redesigned. A suggestion made to Senator Hahn was to make the parking stickers larger so they could function as a way to advertise the college.

B. Curriculum Course Separation
President Narveson met with the SJCC Academic Senate President Charles Heimler on the topic of course separation. He would like to present the idea to the ACCC for more clarification and advice. Although half of the college districts in the state have course separation opposition was voiced by some Senators. The change would make course approval easier but pose a hardship for EVC and SJCC students. The interest in course separation appears to be coming from the administration but the decision for course separation is a Senate responsibility according to the 10+1 rule.

C. Report from Fall Senate Plenary Session
President Narveson gave a short report on the Plenary Session and explained what occurs there and reviewed various resolutions discussed. The next Plenary Session is in northern California and interested Senators were encouraged to attend.
