B. Faculty Peer Evaluation List (Consent Agenda)
President Narveson distributed the list of faculty members who need to be evaluated. The list was found to be incomplete in a few divisions and the assignment of evaluators not done properly in one division. A motion was made to adopt the list of faculty members and those who will evaluate them, with the exception of the Language Arts Division, which will be approved at the next Academic Senate meeting. *The motion was seconded and passed.*

C. Auditing Classes at EVC
President Narveson read a report that illustrated the variety of policies regarding auditing classes in the State. Various scenarios and complications were discussed. Since this is a complicated issue and many professors have already expressed their dismay and confusion at the possibility of students auditing classes, it was suggested that the topic of auditing be shared with the faculty and that opinions solicited, via the Senators. *This is deferred until the faculty feedback is received.*

D. Community Education Courses
A community education program is currently being coordinated within the District in accordance with AB86. Further discussion of this topic was tabled until representatives from the Workforce Institute and District could be invited to discuss the matter with the Senate.

VIII. DISCUSSION ITEMS
A. Campus Ombudsman – Tabled
IX. INFORMATION ITEMS

A. **AFT 6157 Report Regarding Accreditation**
   David Yancey and Barbara Hanfling, representing the AFT, attended the Senate meeting to gather input regarding accreditation issues. Some of the topics that were covered were Student Learning Objectives in self-evaluations, the need for faculty evaluations to be timely and done according to the contract requirements. Moreover, the implementation of new programs cannot proceed until these evaluations are complete. The district and union need to come up with new contract language for this in upcoming negotiations.

B. **Faculty Hire List**
   President Yong has requested that the Senate create another list for tenure-track faculty hires to recommend to the administration by the end of October. President Narveson asked that the Senate develop a list of faculty hiring needs and include a strong rationale for hiring them. District administration is not expected to be supportive of any new hires unless strong evidence for the need of the positions is provided. It was suggested that the on-campus researcher be approached to supply that evidence.

C. **Service-Learning Update**
   The Service Learning program is running with the coordinator-receiving 30% reassigned time. The budget has increased, and includes a program assistant for nineteen hours per week.

D. **New Brown Act Rules/Senate Timekeeper**
   The new rules state that the votes, including who voted for, against, or abstained on each measure, needs to be recorded in the minutes. Also, the Senate needs a timekeeper to help keep the meetings on track. President Narveson asked the Senators for a volunteer. This will be discussed more at the next meeting.

E. **Adjunct Senators Election**
   The nomination ballots for the adjunct Senate seats will be in the mailboxes this week and will be due on Friday, September 12. If there are more than two nominees for the two seats, the election process will begin after that.

F. **Surplus Land Use (Adjacent to EVC)**
   President Narveson reported that the land next to the campus was discussed at the last board meeting, in a closed session, and will be discussed again at the next board meeting. There are negotiations going on between several real estate development companies and the District. Some feel strongly that the land should be saved for future campus development and expansion. President Narveson would like to see all of the campus constituencies and the surrounding community kept in the loop, and, also be able to give input into decisions about that property.

G. **District Senate**
   The idea of having a District Senate has been proposed. It would be a smaller Senate with its own President. The powers and purview of that Senate are presently unknown.

H. **The Role of the Dean in Student Complaints** – tabled

J. **Standing Committee Verification**
   The list of current standing committees for this academic year was distributed. President Narveson would like to have any changes to that list made as soon as possible.

C. Resolution Regarding Student Discipline Procedures--deferred
D. Crisis Prevention Team--deferred

VIII. DISCUSSION ITEMS
A. Faculty Hire List
   At the last meeting, Senators were advised to provide strong evidence of need, possibly with the aid of the campus analyst, to justify faculty-hire requests. President Narveson gave some examples of what that evidence could consist of, such as the percentage of sections or identifying disciplines with no tenure-track faculty instructors. Additionally, data from program reviews or details as to how a department operated
when it was adequately staffed by full-time faculty can be used to support hiring requests. The list needs to be forwarded to President Yong by the end of October, including the justifications. It will be an action item at the next meeting, or October 21 or November 4, if necessary, which is the absolute deadline for submitting the list.

B. New Brown Act Rules (Timekeeper)
Senator Michael Hernandez volunteered and was confirmed by the Senate to serve as its meeting timekeeper. In keeping with requirements of the new Brown Act, the Senate will now track the official votes of each Senator.

C. Surplus Land Use (Adjacent to EVC)
President Narveson gave more details about the proposal to lease the district land adjacent to EVC for commercial development, including the land presently occupied by the police academy and the District Office. He also reviewed the current plans for campus development and expansion that will be going in the direction of the planned commercial development. Most of the Board discussions have been held in closed session and have not been made public to the campus or the neighboring community. EVC and the surrounding community have not been included the discussions about the potential use of that land. President Narveson will keep updated and share the information with the campus as he learns more.

D. Campus Wireless
There have been complaints from students, faculty and staff about the low quality of the campus’ wireless connection. Part of the problem preventing widespread coverage is that some of the buildings are slated for demolition and administration does not want to spend the money to upgrade those buildings’ wireless. The Campus Technology Committee is aware of and looking into the issue. The Senate will request an update from the CTC.

E. Staff Development Letter
Senator and Chair of the Staff Development Committee Nasreen Rahim distributed a letter from the Chancellor of California Community Colleges to Governor Brown stressing the importance of staff development and support for AB2558.

A motion was made to suspend the rules due to the time constraint and move this to action so it can be voted on. The motion was seconded and appeared to fail with two abstentions from Lisa Bell and Steven Graham.

Another motion was made for a recount on the motion to suspend the rules to make it an action item and a motion was made to endorse the letter and was seconded. The motion was passed and with two abstentions from Martha Hardin and Steven Graham.

F. Faculty Office Computers
Years ago, the faculty was promised the option of laptop office computers. However, for the past several years laptop computers have been an option when antiquated office computers were replaced, essentially phasing out faculty use of laptops. How, when, or by whom this policy was changed is an open question. President Narveson will contact Steven Mentor, the Chair of the Campus Technology Committee, about this issue, as well as the poor wireless connection on campus. This will be an action/discussion item at the next meeting.

A motion was made to approve the list from the Math, Science, Engineering and wait until more clarification about Counseling’s list. The motion was seconded and approved unanimously.

B. Auditing
There has been little input from the divisions about class auditing. There was discussion about how better to get more opinions from all the divisions. A recommended change in the catalog was made in the Senate last semester. President Narveson will contact Dean Octavio Cruz about the wording in the catalog.

C. Resolution Regarding Student Discipline Procedures – deferred

D. Crisis Prevention Team – deferred

E. Campus Wireless
Senator Robin Hahn gave a report on the present state of campus wireless. She stated that the CTC is also working on this. A recommendation was made to invite Steven Mentor, the Chair of the CTC, to discuss this further. Senator Nasreen Rahim, who is also on the CTC, will also provide more information. President Narveson would like to have a resolution written about campus wireless.

F. Faculty Computers
Vice President Jack Baker reported that he has a resolution that was written by Professor William Silver about faculty having the choice between a desktop or a laptop computer for their offices. President Narveson suggested that a resolution be crafted, and, within the resolution, it should be stated that this choice is actually in the policy that was enacted years ago and should be adhered to. It was suggested that Steven Mentor also address this topic.

VIII. DISCUSSION ITEMS

A. Faculty Hire List
A suggestion was made that a framework be developed to aid in the creation of a list to present to administration for faculty hires. There were six positions submitted to the Senate by their constituents
Senators were asked to send more faculty position justifications to the Academic Senate office so that all the requests can be discussed. A large portion of time will be dedicated to this topic at the next meeting.

B. **Adjunct Pay for Committee Work** – deferred

C. **Adjacent Land Use (EVC)**
President Narveson has requested that President Yong hold at least two forums on campus on the land use topic either this month or next. He has met with the Chancellor about this and she said that some of the plans being made do include the college. The topic is still being discussed by the Board in closed session.

D. **Council on the Status of Women Report**
Professor Marjorie Clark gave a report on the Council. She also stated that the District is forming its own committee. She gave background and history of the committee. Some of the concerns she listed were crimes against women on campus, the decline in the numbers of police officers, discrimination policy, non-compliance of Title IX, the SAVE Act, no procedures for discrimination/sexual harassment posted in classroom and violation of the Clery Act. Professor Clark also relayed that the Chancellor of the California Community College advises that each campus have a sexual assault advocate. President Narveson distributed his concerns and suggested changes to the wording to the First Annual Report to the Board of Trustees, Chancellor, and President, July 8, 2014.

E. **Service Learning Report**
Director of the Service Learning Center, Marjorie Clark, updated the Senate of the Service Learning program. The program now has a temporary office worker. The office is open on Monday, Tuesday, Thursday from 10:00 to 2:00 and Wednesday from 8:00 to 12:30.

C. **Soccer Team Issue Fall ’13** – removed

VIII. DISCUSSION ITEMS

A. Faculty Hire List
In September, President Yong asked the Senate for recommendations regarding faculty hires for 2015. The number of and timeline for these hires has yet to be announced. Senators were to consult with their constituent colleagues and submit hiring requests to the Senate for consideration. In a departure from the past, hiring requests were also to include written justifications. Twelve requests were received and the written justifications for each were distributed. The Senate discussed the hiring needs for each division and the college, along with the submitted justifications. The Senate agreed all 12 requested positions represented needed to hire faculty, therefore all twelve should be advanced to the President but ranked in order of their importance. Each Senator submitted a ranked-order tally of the 12 positions. President Narveson totaled the tallies. The Senate endorsed the resulting recommendations (presented below) and directed President Narveson to present them to President Yong and the College Council.

1. English  
2. Mathematics  
3. Reading  
4. Biology  
5. Library  
6. Physics  
7. Engineering/Surveying  
8. Art: 3D Sculpture  
9. English  
10. Mathematics  
11. Art History  
12. Transfer Counselor
B. Adjunct Pay for Committee Work – deferred

C. Adjacent Land Use (adjacent to EVC)
   There is still no additional information about the development plans for the land next to the campus. EVC President Yong and Senate President Narveson will be holding two forums for the campus community on November 3, 12:00-1:00, in Gullo II, and December 4, 2:30 – 3:30, in Gullo II. They are also working together on creating a Survey Monkey™ survey for the campus community, including students, to determine how much they know about the plans for the land. It was recommended that the survey be written in languages other than English, as well. It will eventually be shared with the community surrounding the college.

D. District Academic Senate
   The SJCC Academic Senate is still discussing the possibility of creating a District Senate. The duties of a District Senate and its relationship with the college senates have yet to be defined. One benefit to having a District Senate is that the District would have one more vote at the ASCCC State Plenary Sessions. A suggestion was made to form an exploratory committee to discuss this further. It will be on the next agenda.

E. Resolution Regarding Student Discipline Procedures - deferred

F. District Police Crime Communication
   District police currently notify the district community via e-mail, text messages, and voice mail, about events occurring at either college or the District Office. Concern was expressed about a lack of follow-up to those communications. A suggestion was made to write a resolution specifically asking for follow-up information after incidents are reported. It was also suggested that the Senate simply express its concerns to the district police. President Narveson and Senator Brad Carothers will work together to draft a resolution. It will be an action/discussion item at the next meeting.

G. AB 86 Consortium Steering Committee Membership (faculty)
   President Narveson distributed a letter from the SJCC Academic Senate to the Board of Trustees asking that the Board request the Work Force Institute include a faculty member on its steering committee. The committee currently is comprised of administration. The letter also reminds the Board that matters of student success, educational planning, curricular design, and professional matters fall under the purview of local Academic Senates as stated in Title V. President Narveson will consult with Senate Presidents of other colleges for their opinions at upcoming state events he will be attending a soon. This will be on the next agenda.

IX. INFORMATION ITEMS

A. AFFIRM Presentation (Study Abroad Update)
   AFFIRM Coordinator, Flora Payne and Professor Keenan Norris and several AFFIRM students gave a presentation about the trip they took to Belize this past summer. The students who traveled to Belize shared their experiences, and how the study abroad trip affected them and what they learned. Two other students spoke about their hopes of attending an upcoming study abroad session to Cuba next, which will be in June, and what they expect to learn from attending AFFIRM will be holding fundraisers soon.

B. Role of the Dean in Student Complaints Regarding Faculty
   Professor Stefan Solanga asked the Senate to investigate the role of the deans in dealing with student complaints and to clarify the process. President Narveson will determine how much of the
students-complaint procedure lies within the purview of the union vs. the Senate. He also will speak with Vice President of Student Services Irma Archuleta regarding the process and will report to the Senate.

B. Adjacent Land Use (adjacent to EVC)
President Narveson reported on the forum held last week. He stated that the survey sent out to the campus community was invalidated because individuals had unlimited opportunities to answer the survey and potentially skew the results. There will be an additional forum on December 4, in Gullo II, at 2:30 p.m. A suggestion was made to invite the press and surrounding community to attend. Additional forums at different times of the day are planned. This will remain on the agenda as a placeholder.

E. AB 86 Consortium Steering Committee Membership (faculty)
President Narveson reported that members of AB86 Consortium Steering Committee were at the last Board meeting and were not in favor of having faculty members on that committee. The Board did not support faculty representation on the highest steering committee level and voted 4-3 against having faculty on that committee. Faculty members will be still included on the lower levels of planning committees.

F. Faculty Hiring Process
Vice President Jack Baker noted how smoothly the Senate’s development of the 2015 faculty hire-recommendation list went, and credited requiring written justifications as key to the decision process. He also suggested including reference to current program reviews in the justifications, which would also satisfy a criterion of the accreditation committee. It was proposed that in the future, the Senate issue calls for possible faculty hires that include criteria to help department faculty justify their requests and guide the Senate in its deliberations on those requests. A subcommittee was formed to look into the process. Senators Jack Baker, Sravani Banerjee and Michael Hernandez volunteered to serve. The deans’ hiring list will be out later this week.

IX. INFORMATION ITEMS

He made presentations to SJCC and to the Board of Trustees. He is still working with his developer and considers this a pilot project. There are currently some instructors putting together classes using the application and he envisions more use by fall, 2015. VII. ACTION/DISCUSSION ITEMS (Items with * have related documents posted in Outlook Public: “EVC Academic Senate”: “Documents for Meetings”)
A. Crisis Prevention Team
   President Narveson sent the Senate resolution (adopted November 4th) to Vice Chancellor Doug Smith about making public follow-up reports, via email and texts, when the District issues alerts. Since then, the District has been issuing follow-up reports. No action taken

B. Campus Wireless
   Professor and Chair of the Campus Technology Committee Steven Mentor gave a brief report from the committee and addressed Senate questions and concerns about campus technology issues, especially regarding wireless access. He reported that the charge of the committee is to promote better delivery of pedagogy using technology to help students learn. The committee has historically been reactive and Dr. Mentor would like to see it become more proactive. He would like input from the Senate on faculty needs. He explained that the committee’s number one priority is improving campus wireless, especially in Roble and Acacia. He feels that the poor wireless access will cause the campus to lose students, and that it is something prospective students take into consideration when choosing colleges. He urged the Senate to pay particular attention to this situation. Training and its delivery is another issue the committee will be
working on. Vice Chancellor Ben Seabury will be invited to the next meeting to further explain technology concerns and answer questions. *No action taken.*

C. **Faculty Computers No action taken**

Dr. Mentor also addressed the lack of laptops for faculty, as well as using tablets versus laptop and desktop for more mobile computing. The CTC is also working on better ways to get feedback from faculty about computer issues. The roll out of Office 365™ is about to happen and training will be needed for that. No progress was reported about having a campus portal. It was suggested a budget line item be added for campus computing. The challenge of updating technology in laboratories was raised. The campus definition of technology is too narrow, emphasizing computers and data projectors, and ignores the multiple ways technology is used in science, engineering and other technical fields. Technology in the lab is typically categorized as capital outlay, but this equipment should be part of the technology plan, including in scheduled upgrades. The issue of limited administrator rights was discussed. It is often cumbersome to start up computers or impossible to run popular applications because the computers need routine updates or simple settings changes that faculty are blocked from running. Vice Chancellor Ben Seabury will be invited to the next meeting to further address technology concerns and answer questions. Dr. Mentor will report the Senate discussion at the next CTC, and report back to President Narveson. For future Senate meetings the computing and campus wireless issues will be compressed into one agenda item titled campus technology. Senator Michael Hernandez will craft a resolution about campus technology.

D. **Adjunct Pay for Committee Work**

A resolution in support of paying adjunct faculty for their committee work was submitted by Senator Steven Graham and discussed at the November 4th Senate meeting. The resolution was further discussed and editorial suggestions were accepted by its author. A motion was made to adopt the resolution with changes. The motion was seconded and passed unanimously. The resolution will be forwarded to President Yong and Chancellor Cepeda.

VIII. **DISCUSSION ITEMS**

A. **Adjacent Land Use (adjacent to EVC)**

Additional information will be published after the Board meeting when it is on their agenda. There is a forum about land use scheduled for December 4, at 2:30 in Gullo II.

B. **District Academic Senate**

There is still discussion going on regarding the formation of a District Academic Senate and plans for a joint meeting of the EVC and SJCC Senates in spring. There are concerns about the jurisdiction of this new Senate. President Narveson believes eight members would be sufficient for a District Senate and that its president would be elected by those eight. Various possible scenarios were discussed. A suggestion was made to create a subcommittee to explore this and President Narveson will discuss this with the SJCC Academic Senate President Jesus Covarrubias.

C. **Resolution Regarding Student Discipline Procedures – tabled**

IX. **INFORMATION ITEMS**

A. **Role of the Dean in Student Complaints regarding Faculty - deferred**

B. **Catalog Language Protecting Faculty**

Professor Stefan Salonga distributed two versions of statements in the EVC catalog. The older version contained language that prohibits students applying undue pressure on instructors to change their grades. The more recent edition omitted this statement. The originator of the change is unknown. Professor Salonga would like the Senate’s support in restoring omitted statement to future catalogs. It was suggested that the
administration be reminded that some catalog items fall under the purview of the Senate and the Senate should be part of the catalog statement approval process. This will be a discussion item on the next agenda.

VII. ACTION/DISCUSSION ITEMS (Items with * have related documents posted in Outlook Public:
“EVC Academic Senate”: “Documents for Meetings”)
A. EVC Distance Education Test Proctoring Center
Senator Nasreen Rahim asked the Senate to endorse the concept of a test-proctoring center on campus. The size and needs of the center were discussed. The center would be used for students who are enrolled in online/distance education classes and would also be used for local students who are taking the courses at another institution. Professor William Nguyen, the faculty member who would be in charge of the center, said there would be space for 35 students. Suggestions were made to not just endorse the concept but to advocate for a facility that would meet EVC’s needs including larger capacity (100 seats), computers (with privacy screens), and headsets, and ADA compliance. A motion was made to endorse the concept and support the development of a proctoring center, and to delegate to the executive committee over the summer the task of working with Professors Rahim and Nguyen, and online instructors to identify the space, equipment, and staffing needs to create a functional online resource center. The motion was seconded and passed unanimously.

B. Chapter 4 Board Policies
President Narveson discussed the revised Board policies. There were no big changes; those made were essentially updates to conform to accreditation requirements. Senate approval was needed. A motion was made to approve the Chapter 4 Board Policies. The motion was seconded and passed unanimously.

D. **Bookstore Committee**
The purpose and scope of the Senate bookstore committee was discussed. A motion was made to charge the bookstore committee with working with bookstore management to resolve faculty concerns regarding pricing, ordering time, supplemental course materials, and copyright issues. The motion was seconded and passed unanimously.

E. **Review of EVC Distance Education Policy** (adoption of Canvas application)
Senator Nasreen Rahim distributed copies of the EVC Distance Educational Policy that was adopted by the Campus Technology Committee. Professor William Silver attended to explain the Canvas Network that has been adopted by the state. He explained that this new course-management system was more user-friendly than the previous generations of management systems used at EVC. He acknowledged that this represented yet another change for instructors who are incorporating online instruction in their course but also noted that as long as technology continued to change, change would be a constant for teaching online. The Chancellor’s Office will pay for most of the conversion to Canvas and technical support and training is free. This policy and adoption of Canvas needs to be adopted as soon as possible so that it can be part of a statewide online education exchange for online/distance education. Conversion utilities will be provided and infrastructure is not an obstacle. A motion was made to adopt the policy. The motion was seconded and passed with one abstention from Senator Michael Hernandez.

F. **Election of Senate Executive Committee 2015-2016**

A. **Preliminary Educational Master Plan**
Fred Trapp, from Cambridge West, who is the educational master plan consultant, was present at the meeting. He identified areas in need of improvement at both the district and college levels. He mentioned that there could be severe ramifications if precise procedures were not followed regarding the leasing of the 27 acres adjacent to the EVC campus. He also mentioned that the district will not receive revenue for four-years from the development. Mr. Trapp is working closely with the Institutional Effectiveness Committee on reports and planning. Mr. Trapp urged the Senators to meet with Vice President Keith Aytch or their deans so they may brainstorm ways of offering more attractive and educational opportunities to the community’s potential students, as well as removing possible barriers that may lessen interest in EVC. He also believes that 25 more classrooms are necessary to provide offerings to help with that goal.

B. **Senate Goals for 2015-2016**
