

N109 HEALTH CLEARANCE REQUIREMENTS

Submission of health forms is required prior to starting clinical. You do not need to submit any forms to be able to register for the class. Once enrolled, you will submit:

1. Physical exam and health history form, which must be completed within 6 months prior to the start of clinical. The form must be signed by the healthcare provider and include the provider's NPI number.
2. Influenza vaccine- documentation of a current flu shot is required during the flu season (October-April).
3. TB Clearance
 - Two-step TST (TB Skin Test): The first TST is placed, then results are read within 48-72 hours. If results are negative, a 2nd TST is placed between 1-3 weeks after the first TST was **read**. The results of the 2nd TST are read within 48-72 hours of placement. This 2nd TST must be placed within 6 months prior to the start of clinical.

OR

- Chest x-ray if you have a history of positive TST. The chest x-ray should be dated within 1 year prior to the start of clinical and must include a written report indicating no active disease is present.
- **OR**
Quantiferon TB Gold or TSpot screening test if indicated by your healthcare provider. The results for either test must be negative for TB disease and be dated within 6 months prior to the start of clinical.
