Participatory Governance Survey Spring 2019 Results

Disagree

The charge of the committee/council is clear.

Agree/Strongly Agree 85.71

Disagree 2.86

The charge of this committee/council as it relates to integrated planning at EVC is appropriate.

Agree/Strongly Agree 85.71

Disagree 2.86

The committee/council is meeting its charge.

Agree/Strongly Agree 82.86

Disagree 2.86

The communication between the College Council, Academic Senate, and/or committees, supports making decisions at EVC.

Agree/Strongly Agree 77.14

Disagree 14.29

N=34 respondents

Comments:

I do like the input from all different consistencies (faculty, staff, administrators, and students) in the meeting and value their different ideas and opinions. However, there has not been the same students each time, and other groups do not consistently come to meetings. It appears, some only attend when there is a vote or something the will affect them. Not getting their opinions otherwise.

I have not received training for any committee on which I've served.

Since I am no on the College Council Committee, I often do not hear back about the disposition of decisions made at the College Council meetings.

I believe there would be more faculty able to join this committee if the meeting time was moved to later in the day. The Committee currently meets at 12:30 pm, and most faculty teach classes at 12:15.

From the student perspective I see that the functionality of the IEC is effective, i would say that other committees that i have sat on could fair well to have some parliamentary training.

Transparency and communication between committees.

Please clarify if Adjunct can serve on the committees which do not require election, how to serve, and do Adjuncts get paid to serve on these committees? Unless I am missing something, the process to serve on committees listed is not clear. Thank you.

The Associated Students Council would be more effective in providing support to the intergrated planning at EVC, if a report section would be given to the AS on the College Council Meeting Agendas.

We need to close the loop on communication between CTC and College Council regarding recommendations made by CTC. In addition we are about to mightily change the role CTC plays in technology selection for the College, so we will need some members to step up more. We need representation from some areas including Student Services and the VP of Academic Affairs.

I was not trained before or during the time I have been serving on the committee.
