EVERGREEN VALLEY COLLEGE

ADVANCED MANUFACTURING TECHNOLOGY PROGRAM

Jumpstart Your Career in Advanced Manufacturing!

The Advanced Manufacturing Technology (AMT) program is a certificate program at Evergreen Valley College designed to prepare students for high-tech, high-salary jobs at local advanced manufacturing companies

Through the AMT program at Evergreen Valley College, you will be prepared for a career as an advanced manufacturing technologist. The program has been designed in partnership with cutting-edge Silicon Valley companies such as CAES, DuPont, and Flex Interconnect, among many others!

- Focus on applied **skills training and hands-on learning** with classes taught by industry professionals
- Transition to part-time or full-time employment with local companies while completing the AMT program
