- Josh Russell, Marketing & Communications Director
- Fernanda Torres, Associated Student Government President & Student
- Howard Willis, Vice President of Student Affairs

***\*Please contact committee members if you have any question, ideas, or other feedback regarding the Educational Master Planning project.***

**2. Overview of project status and milestones:**

- **The Planning Team:**
- has compiled EVC data and is now conducting an Environmental Scan of external and internal data, which is centered on the student experience and outcomes, and identifying significant trends;
- is initiating an assessment of the current EMP to review evidence of EMP outcomes and determine the continued relevance of initiatives/goals/objectives; and,
- will be engaged in preliminary planning for community engagement forums coming in February 2022.

**3. Student Focus Groups:**

- Planning for student focus groups is underway. Please keep an eye out for details as these events are scheduled.
- Initial review of Environmental Scan data will guide the areas of inquiry for these sessions (e.g., the student experience at EVC, students' current and future needs for success, ensuring equitable access and outcomes, creating an inclusive and anti-racist environment).
