

GENERAL STUDIES WITH EMPHASIS IN NATURAL SCIENCE - ASSOCIATE IN ARTS

The Associate in Arts Degree program in General Studies with Emphasis in Natural Science outlines a course of study that emphasizes breadth in the physical and life sciences. Students will learn to apply scientific methods to investigate both physical and biological aspects of the environment. Students completing this program will satisfy lower division science and general education requirements for CSU. Students must complete each required area of emphasis course with a grade of 'C' or better to be awarded the degree.

Program Learning Outcomes

- Apply scientific method to solve practical problems in the sciences.
- Collect, analyze, and interpret scientific data.
- Properly and safely use common scientific laboratory and field equipment.
- Relate fundamental concepts and properties of matter and energy to biological and physical processes.
