

**Evergreen Valley College Clinical Clearance Process
Student Checklist**
All Items Due in Complio (www.evcbackgroundcheck.com) by June 30th

Completed & Uploaded Name: _____ Date: _____

- Background Check and Drug Screening- Annual
 - All students participating in clinical assignments are required by acute care hospitals to complete a criminal background check and be cleared by the clinical facility in order to participate in the clinical experience. All students will be required to pass a drug screen.

- Emergency Contact Form: must use EVC form, and update thereafter as indicated

- Acceptance & Responsibility Form: must use EVC form

- Health Insurance
 - Verification of current health insurance coverage (insurance card or enrollment document)
 - Community resources if you need health insurance:
 - Covered California: <http://www.coveredca.com/>

- Health Clearance- Annual
 - A medical history and physical examination completed by a physician, physician's assistant, or nurse practitioner **within three (3) months** prior to program enrollment year. The physical must state that the applicant does not have any health conditions that would create a hazard to self, employees, or patients.
 - Must use EVC form

- CPR
 - Current Basic Life Support (BLS) Provider certification
 - **The ADN Program will offer American Heart Association (AHA), BLS class every summer for all accepted applicants; applicant covers cost**

- Respiratory Fit-test- Annual
 - Written documentation (EVC form or Employer form) of annual fit-test results with the health care particulate respirator N95; form for tests at EVC
 - **The ADN Program will offer testing for all accepted applicants; applicant covers cost**

- PPD/Tuberculosis Skin Test (TST):
Note- vaccination with live viruses (such as Varicella and MMR) may interfere with TST reactions. TST may be given either on the same day as vaccination with live-

virus vaccine or 4-6 weeks after the administration of the live-virus vaccine. Highly advised to complete TST before receiving live-virus vaccines.

- Negative TST history
 - Must initiate a 2-step TST within 3 months prior to program enrollment year:
 - If first-step TST result is negative, the second-step TST should be administered 1-3 weeks after the first TST result was read.
 - If either, 1) the baseline first-step TST result is positive or 2) the first-step TST results is negative but the second-step TST is positive, TB disease should be excluded. Follow-up chest radiograph or x-ray (CXR) with written report of negative results.
- Positive TST history:
 - Negative TB symptom review questionnaire (obtained from physician)
 - Written report of negative CXR within 3 months prior to program start date
- Interferon Gamma Release Assay (IGRA)
- Positive antibody titer to measles, mumps, and rubella
- ❑ MMR
- ❑ Hepatitis B
 - Written documentation of 3 doses of Hepatitis B vaccine, AND
 - Positive antibody titer
- ❑ Varicella
 - Positive antibody titer
- ❑ T-Dap
 - Written documentation of one dose of T-Dap vaccine within past 10 years
- ❑ Seasonal Flu Vaccine
 - Written documentation of Seasonal Flu Vaccine (annual), or
 - Signed declination of vaccine form (must wear mask during flu season)

Note:

- Written documentation:
 - Copy of yellow immunization record, **or**
 - Copy of vaccine receipt with your name, name of vaccine, dose, route, date, **or**
 - Physician letter (must be on physician stationary/letterhead) stating your name, name of vaccine, dose, and date
- Lab titer results (antibody titer):
 - Laboratory evidence of immunity - copy of lab slip (*For Kaiser patients, just a screen print of your lab results indicating positive or negative are acceptable).
