## ABOUT EVERGREEN VALLEY COLLEGE

Opened on September 3, 1975, and now serving over 9,000 students a semester, Evergreen Valley College represents the community in which it serves. This is our 50th anniversary class.

Set on a 155-acre campus in the foothills of San Jose, the college offers transfer programs, career education, and workforce development opportunities in fields such as nursing, automotive technology, child development, business, science, engineering, arts, and the humanities. It is open to anyone willing to take the first (or second, or third) step towards college.

Today's graduation ceremony is in Bettencourt Soccer Stadium. EVC's first graduation was on the shores of EVC's man-made lake, Lake Evergreen (which is behind you), and celebrated 136 graduates in 1976. This year's class has earned nearly 2,000 degrees and certificates.

Our graduates will work in our local hospitals and at the local car dealership. They will transfer to San Jose State, UC Santa Cruz, Cal, UCLA, and beyond. They have even ended up studying at Cambridge in England.

EVC's men's and women's soccer teams, which feature prominently in this year's graduating class, have represented the Hawks proudly deep into the 3C2A Playoffs as some of the top teams in the State.

Since its beginnings at the intersection of two "rural" two-lane country roads (and where you are sitting today), EVC has grown with the City of San Jose and the surrounding Silicon Valley community.

Our graduates' success is celebrated each May, thanks in large part to their families and friends.

EVC's students are the first in their families to attend (and graduate) college, single parents, students looking for a second degree or career path. They are also high school students looking to get ahead or, one day, transfer to a four-year university. Many are working adults supporting their families.

Their story starts at Evergreen Valley College, but continues every day as the fabric of our community. Congratulations to the class of 2026!

First Graduation (June 1976)

49th Graduation (May 2025)

## THE ACADEMIC PROCESSION – HISTORY AND TRADITION

One of the most colorful parts of commencement is the academic procession – the opening part of the time-honored and traditional ceremonies. The procession includes all of the participants in the exercise: the graduating class, faculty, governing board and participating guests.

The graduating class wears black gowns. The tassel of the cap is worn on the right and changed to the left immediately after receiving the degree of Associate of Arts or Associate of Science.

The college faculty, staff and administrators, along with the governing board and program guests, wear counts indicative of their academic ranks.

#### Cap and Gown

The tradition of the cap and gown, with its rich colors and distinctive designs, dates back to the twelfth century and the earliest universities in Europe. While styles have evolved over time, each gown continues to symbolize academic accomplishment within a particular field of study. Faculty regalia, in particular, reflects the highest degree earned by the wearer and is traditionally categorized into three levels.

**The bachelor’s gown** is traditionally made of black worsted fabric and features long, pointed sleeves. It is worn closed at the neck.

**The master’s gown** is typically made of black silk or wool and is distinguished by long, closed sleeves with a crescent-shaped cut near the bottom and an opening at the elbow for the arms.

**The doctorate gown** is traditionally made of black silk or wool and features full, rounded sleeves adorned with three velvet stripes. The velvet is typically black, though it may also match the color of the hood’s trim.

The traditional mortarboard cap is worn for all academic degrees, with the primary distinction being the tassel. For bachelor’s and master’s degree holders, the tassel is usually black, though it may occasionally reflect the color of the hood’s velvet trim. For doctoral degree holders, the tassel is gold.

#### Academic Regalia

The academic regalia is distinguished by one of its most recognizable elements—the hood. Typically made of black fabric to match the gown, the hood varies in length according to the degree: three feet for a bachelor’s degree, three and a half feet for a master’s degree, and four feet for a doctoral degree.

Each hood features a velvet border, the width of which corresponds to the level of the degree—two inches for a bachelor’s, three inches for a master’s, and five inches for a doctorate. This velvet edging extends around the front of the neck, forming a neckband. The color of the velvet trim signifies the academic discipline or field of study in which the degree was earned. The interior of the hood is lined with silk in the official colors of the college or university granting the degree.

The following is a list of colors for designated groups at EVC (and sometimes their stoles):

AFFIRM	Multi-colored Kente cloth	LGBTQ+	Rainbow achievement stole
ASG	Red and Blue	OASSIS	Multi-colored traditional sarape
ASPIRE	Red		
Enlace	Blue	Veteran	Blue or green silk stole
First Year Experience Honors	Orange Gold Braids	Country logos on stoles	Represent a students’ cultural identity

## 2026 COMMENCEMENT ADDRESS SPEAKER & BIO

### **DR. LARRY SALOMON**

Instructional Faculty, Special Programs  
Ethnic Studies Program, College of Ethnic Studies

Dr. Larry Salomon has been teaching in the College of Ethnic Studies at San Francisco State for over 30 years. He teaches courses on social movements and community organizing, racial politics, critical thinking, and even courses on race and popular culture, focusing on the intersections between race and both sports and comedy.

Larry holds a doctorate from UC Berkeley in Comparative Ethnic Studies with an emphasis in history. He is also the author of the book *Roots of Justice: Stories of Organizing in Communities of Color*.

He is a proud Marauder from San Diego's Mira Mesa High, who began taking community college classes in the America's Finest City, before transferring to San Francisco State in 1990. He has lived in the Bay Area since. He loves his family, but they believe he loves the 49ers, Giants and Warriors even more.
