March 26, Thurs. **Equal Pay Day**

Equal Pay Day is a public awareness event illustrating how far into the year American women must work to earn what men earned in the previous year. The date changes each year to reflect the data and difference in earnings between men and women in the same occupation, also known as the gender pay gap. For 2026, Equal Pay Day is observed on March 26, signifying that, on average, American women earn 81¢* for every dollar earned by men for the same job.

* It is important to note that this amount varies greatly depending on race, ethnicity, and employment status.

Coordinated by the EVC Women and Gender Equity Program, the Art, Counseling, History, and Women and Gender Studies Departments, Business & WorkForce Development, and the Language Arts Division & Library with support from the Asian American, Native Hawaiian, and Pacific Islander Student Achievement Program, the Office of Academic Affairs, the Office of Student Affairs, and Student Services.
